Absentee Voting

Individuals who wish to vote Absentee in Sumner County must begin the process as early as possible. The 90th day before an upcoming election is the first day an application can be legally received by the County Election Commission.

Under state law, an absentee voter must have a legal reason in order to vote absentee by mail. Those reasons can include being over 60 years in age; a college student out of town; or being out of town during the early voting period and Election Day.

To request an absentee ballot, the voter should contact the Sumner County Election Commission office directly by phone, fax, email or letter.
